DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 06/29/2006 was filed after the mailing date of the application on 04/06/2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 1, 2, 3. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5298617 (Nukada).

Nukada discloses an oxytitanium phthalocyanine having a maximum diffraction peak present at a Bragg angel (2Θ +/- 0.2) of 27.3° and other peaks at 24.0° , 18.0° , and 14.3° (column 3, lines 9-20). The oxytitanium phthalocyanine are obtained by mixing phthalocyanine crystals with a sulfuric acid, in

Art Unit: 1795

concentration from about 70 to 100 wt% to form a slurry in a temperature range of -20 - 100oC, the amount of the sulfuric acid used is in a range of 1 to 100 times the weight of the oxytitanium phthalocyanine (column 3, lines 28-38). The crystals are then stirred in the solvent for 1 to 5 hours. The grinding treatment may be performed by an attritor, a ball mill, or a sand mill. Solvents, such as methanol or ethanol, may be added in the grinding in a range of 5 to 50 times the weight of the oxytitanium phthalocyanine (column 4, lines 1-26). The oxytitanium phthalocyanine crystals are prepared by reacting 1,3-diminoisoindoline and titanium tetrabutoxide in 1-chloronaphthalene at 190°C for 5 hours, and then washed with water (column 7, lines 4-11). The resulting oxytitanium phthalocyanine may be used in an electrophotographic photoreceptor (column 2, lines 8-11).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rachel L. Burney whose telephone number is (571)272-9802. The examiner can normally be reached on Mon-Thurs: 7:30-6:00 PM, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
